SUMMARY

Curious and detail-loving designer with a background in Visual Design, and experience across consumer-facing UX, and early-stage B2B SaaS. I aspire to build a well-rounded UX practice, from research and conception to development.

EXPERIENCE

UX Design Intern | **Thesys** Jun 2025 - Nov 2025

- Led user research with 145 participants to test Generative UI in AI chatbots, quantifying user engagement and task efficiency.
- Designed and marketed the Generative UI Report, 2025 that helped position Thesys as a thought leader in the space, and garnered 107K impressions on LinkedIn.
- Delivered collaterals for social media, marketing, company website and Product Hunt launches.
- Assisted in scaling the Crayon Design System through component creation, updates, and documentation.

Freelance Visual Designer | **Conscious Collective, Godrej** Nov 2024

- Designed and hand-painted a 6-ft mural on a home-grown kombucha leather lamp for “Luminous Lore”, a winning project under Conscious Collective.

UX Design Intern | **Samsung R&D** Jun 2025 - Nov 2025

- Conducted in-depth user interviews with 30 participants.
- Developed 10 design principles for personalization with Galaxy AI, used by cross-functional teams to guide the design of AI-driven features for OneUI.
- Demonstrated applications of Design Principles by pitching cross-system feature concepts.

UX Design Trainee | **Samsung PRISM Program** Jan 2024 - Jul 2024

- Conducted a qualitative study and quantitative research with 56 participants to define and validate problem areas in digital-wellbeing and android widget design.
- Designed delightful motion-focused widgets for Digital Wellbeing informed by research insights.

Freelance Graphic Designer | **via faculty collaboration** Apr 2022 - May 2022

- Designed playful, age-appropriate patterned illustrations for screen printing on women and children's garments.
